Memo No. 2019 /ARR/Dy.CAO/254/Vol.II

Dated 14/2/2019

**Subject: Assessment of T&D Losses on AP Feeders.**

With reference to your office letter No. PSERC/Tariff/T-2245 dated 11.12.2018 and in continuation to this office memo no. 40/ARR/ Dy CAO/254/Deficiency dated 09.01.2019, It is submitted that as per Commission's directives 5.23 of Tariff Order for 2018-19 regarding assessment of T&D losses on AP feeder, Hon'ble PSERC has directed PSPCL to submit monthly information of samples feeders where 100% metering has been completed. It is informed that only pumped energy to feeders is available with PSPCL.

Output energy is not available with PSPCL because meter readings for AP consumers covered fewer than 100% metering on 1% feeders were to be taken by independent agency. Engagement of 3<sup>rd</sup> party to compute T&D losses on 1% feeder is under progress and will be finalized shortly. List of 55 No. of selected feeders where 100% metering has been done is attached herewith.

With regard to distribution losses of 11.90% as per MIR ending March 2018(FORMAT-MR17) the reply has already been sent vide office memo no. 40/ARR/Dy.CAO/254/Deficiency dated 09.01.2019 at page no. 16 please.

As HVDS has been implemented for AP consumers and all new AP connections and shifting of connections are on HVDS, AP losses are much lower.

Chief Engineer/ARR & TR,  
PSPCL, Patiala.
