ORDER

The petitioner filed the present petition for approval of Power Purchase and determination of tariff for its 11.50 MW pre-processed MSW based WtE plant at Amritsar for sale of power to the Distribution

Licensee in the State of Punjab and approve the levelised tariff of Rs. 9.51/ KWh in accordance with the tariff structure adopted by the Punjab State Electricity Regulatory Commission.

PEDA has filed short reply to the petition. The Learned counsel appearing on behalf of PEDA submitted that neither the Detailed Project Report (DPR) for the proposed power project has been approved by the Project Allocation Committee (PAC) nor Implementation Agreement (IA) and Power Purchase Agreement (PPA) has been executed by PEDA and Distribution Licensee, respectively as required under the NRSE policy 2012 and therefore the petition for approval of Power Purchase from the 11.50 MW pre-processed MSW based WTE plant and levelised tariff of Rs. 9.51 per KWh is premature.

Keeping in view the fact that the detailed Project report of the project has yet to be approved by the Project Allocation Committee and the implementation agreement as well as the Power Purchase Agreement is also to be signed between the parties, the petition is premature for determination of tariff and approval of the levelised tariff and is dismissed accordingly with a liberty to file a fresh petition after execution of the IA and the PPA for the aforesaid project at Amritsar.
