SCOPE OF WORK

1.1 As per Supply Code, the consumers shall comply with harmonic standards as specified by the CEA for various voltage levels. Current/Voltage harmonics generated by PIU industries affect the Distribution System on account of various parameters like Voltage Dip, Voltage flickers and Voltage & current waveform distortion, harmonics, capacity loss of the utility Distribution System, Demand Factor, Energy loss in Distribution System, etc.

In view of above, as per existing instructions, following units/processes are considered Power Intensive Units (PIU).

“Induction furnaces, Chloroalkaline units, Billet heaters, Surface hardening Machines, Electrolytic process industries, Electrical Bell Furnace for Annealing, Arc Furnaces (including Electro Slag Refining units)”

In petition No. 62 of 2021, an issue has been raised before the Commission regarding PIU status of the Electroplating Industries, Hardening Furnaces, Tempering Furnaces, Metal gathering Machines, Welding Machines / Butt Welding Machines and Power Coating equipments industries. The Consultant is to submit expert recommendations, whether the following industries are to be considered under PIU category or not on the basis of expert study of the process supportive with requisite technical measurements as per relevant applicable standards for the sample industries of each process as under:

- i) Electroplating Industries:
 - a) 1 No. industry from South Zone (Ropar and Patiala distribution circles) having load more than 5000kW.
 - b) 3 No. industries from Central Zone (Ludhiana) having load between 100kW to 5000kW
- ii) Hardening Furnaces:
 - a) 2 No. industries from South Zone (Ropar and Mohali distribution circles) having load between 200kW to 1000kW.
 - b) 2 No. industries from Central Zone (Ludhiana) having load more than 1000kW.
- iii) Tempering Furnaces:
 - a) 1 No. industry from South Zone (Mohali distribution circle) having load between 200kW to 3000kW.
 - b) 1 No. industry from Central Zone (Ludhiana or Khanna) having load more than 1500kW.
- iv) Metal gathering Machines:

2 No. industries from South Zone (Ropar distribution circle) having load more than 200kW.
- v) Welding Machines / Butt Welding Machines:

- a) 1 No. industry from South Zone (Ropar distribution circle)having load between 150kW to 1000kW.
- b) 1 No. industry from Central Zone (Ludhiana) having load more than 1000kW.
- vi) Power Coating equipment:
 - a) 1 No. industry from South Zone (Ropar distribution circle).
 - b) 1 No. industry from Central Zone (Ludhiana) having load more than 1000kW.

2. The Consultant shall submit the draft study report within two months from award of the contract.The particular industry for which study is to be got conducted shall be finalized after the award of the contract.

TERMS OF PAYMENT

- 1 Terms of Payment**
- 1.1 Payment for services rendered will be made in two installments. The first installment consisting of 50% of the contracted amount/fee will be made after submission of draft report to the PSERC.
- 1.2 Second installment of balance 50% of the contracted amount/fee will be payable after the submission of the final draft of the report after incorporating the comments/recommendations on the comments of PSPCL on the draft report and acceptance of the final draft of the report by the PSERC.
